DATE: 23 June 1998

MEMORANDUM FOR EDMIS USERS

SUBJECT: Software Version Description (SVD) for Installation Support Module (ISM) Education Management Information System (EDMIS) Interim Change Package (ICP) P01-A11-10-0A-A

1. Enclosed is ICP P01-A11-10-0A-A which provides a formal change to the Education Management Information System (EDMIS) ISM
2. Acknowledgement of installation of this ICP must be made IAW instructions provided in Enclosure 1.
3. This memorandum certifies that the ISM subject software has been thoroughly tested, is considered to be a quality product, and is hereby authorized for release to a production environment.
4. Security Implications: NONE.

Change Package Control Number: P01-A11-10-0A-A

1. Scope

1.1 Identification. This Software Version Description (SVD) applies to the Education Management Information System (EDMIS) running on Army Standard Information Management System (ASIMS) and networked AIX operating system on UNIX platforms.

1.2 System Overview. EDMIS is part of the ISM Project which is an Army-wide Major Automated Information System (MAIS) initiative. The primary objective of ISM is to enhance, through

automation, installation management functions. ISM applications consist of standard procedures packaged into functional applications which automate as well as integrate day-to-day installation processes. ISM applications use the Installation Level Integrated Data Base (ILIDB), which is the central repository for data that is common to more than one ISM application, and various local databases that contain data elements unique to the individual ISM applications.

The purpose of the EDMIS ISM is to automate management of the soldier's educational process. It allows education services officers (ESOs), learning center personnel, and other authorized persons to enter, modify, query, and report on information kept in each soldier's basic educational record [Department of Army (DA) Form 669]. It also provides for electronic transfer and retrieval of records across installations and agencies. Benefits expected from using EDMIS include more accurate tracking of soldiers' academic progress, better resource utilization, and improved financial management and reporting at the installation and major command (MACOM) levels. Primary EDMIS functions include:

- managing soldiers' education records, including on-duty and off-duty courses, program administration, and financial aid;

- providing routine rollups of participation/cost data for use within the installation and for transfer to higher echelons;

- routine test scoring and data manipulation;

- printing required forms and documents;

- and providing supplementary services.

1.3 Document Overview. This document provides the instructions necessary for the implementation of the formal Interim Change Package (ICP) P01-A11-10-0A-A of EDMIS. It informs the users of the changes made to the system and provides Point of Contacts (POCs) to be contacted in case of problems.

Change Package Control Number: P01-A11-10-0A-A

2. Referenced Documents

2.1 Referenced Documents. This paragraph has been tailored out.

3. Version Description

3.1 Inventory of Materials Released. This paragraph has been tailored out.

3.2 Inventory of Software Contents. Hardware platform - ASIMS/UNIX AIX OS users (Installation supported).

This change package contains the following files.

PROGRAM	VERSION	UPDATE
---------	---------	--------

		P01-A11-10-0A-A.txt
README.edmi s_100A	1000	23 Jun 1998
edmi s_100A.cpio.Z	1000	23 Jun 1998
install.edmi s_100A	1000	23 Jun 1998

3.3 Changes Installed.

3.3.1 Corrector Descriptions - Technical. None.

3.3.2 Corrector Descriptions - Functional.

1. ECP- S/E P01- A150- 041
 - A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM The VA Note 1, a print out of counseling note 62 is incomplete.
 - D. RESOLUTION: Revised VA Note 1 to include missing statement.
 - E. ICP: P01- A11- 10- 0A- A
2. ECP- S/E P01- S113- 038
 - A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM When the total CLEP general score is entered incorrectly, an "invalid entry" screen appears.
 - D. RESOLUTION: Corrected field branching for F_etclepd.c.
 - E. ICP: P01- A11- 10- 0A- A
3. ECP- S/E P01- S113- 040
 - A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM Path 1.1.1. When a new SSN was entered and F3 was pressed, received database error -1480.
 - D. RESOLUTION: Increased field size on ind_race_ed and ind_ethnic_cd.
 - E. ICP: P01- A11- 10- 0A- A

2

Change Package Control Number: P01- A11- 10- 0A- A

4. ECP- S/E P01- S300- 040
 - A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM Tie the TA control number to the counselor who issues the TA.
 - D. RESOLUTION: Added new field, ed_ctr to collaten table and reports and forms.
 - E. ICP: P01- A11- 10- 0A- A
5. ECP- S/U P01- S431- 136
 - A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM The score item accepts only integers. Regents has changed several ACT- PEP tests to a letter grade instead of a numeric score.
 - D. RESOLUTION: Changed fields totscore in clepscor and clepref tables to character.
 - E. ICP: P01- A11- 10- 0A- A

6. ECP-S/E P01-T044-055
- A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM: When using path 1.2.2 the screen displays an SSN that is shifted parts for the correct SSN.
 - D. RESOLUTION: Clearing tempstr before storing each section of SSN.
 - E. ICP: P01-A11-10-0A-A
7. ECP-S/E P01-T044-056
- A. CYCLES: None.
 - B. PROGRAM EDMIS
 - C. PROBLEM: Space for education services office name allows for 35 characters. Error occurs when more than 27 characters are entered.
 - D. RESOLUTION: Increases the field size from 28 to 36 for the name field in eso_info table.
 - E. ICP: P01-A11-10-0A-A

3.3.3 Summary of Changes.

- a. Copy library member changes.
 - 1. Changed: None.
 - 2. Deleted: None.
 - 3. Added: None.
- b. Control library member changes.
 - 1. Changed: None.
 - 2. Deleted: None.
 - 3. Added: None.

3.4 Adaptation Data. This paragraph has been tailored out.

3

Change Package Control Number: P01-A11-10-0A-A

3.5 Related Documents.

3.5.1 Technical Documentation Changes. A new AIX version of Software Center Operator Manual (SCOM), AISM 25-P01-A11-AIX-SCOM dated 10 March 1998 has been issued. This current version of AISM 25-P01-A11-AIX-SCOM may be obtained from:

U. S. Army Information Systems Software Development Center-
Washington
Attn: AMSEL-SE-IS-SDW-E-I, Stop H-15.
Fort Belvoir, VA 22060-5576.

3.5.2 Functional Manual Changes. A new AIX version of Software User Manual (SUM), AISM 25-P01-A11-AIX-SUM dated 01 Mar 1998 has been issued. This current version of AISM 25-P01-A11-AIX-SUM may be obtained from:

U. S. Army Information Systems Software Development Center-
Washington
Attn: AMSEL-SE-IS-SDW-E-I, Stop H-15.
Fort Belvoir, VA 22060-5576.

3.6 Installation Instructions. These instructions explain how

to install EDMIS ICP P01-A11-10-0A-A onto the host computer at the installations.

Pre-Install Procedure. Before beginning to install EDMIS ICP P01-A11-10-0A-A onto the ISM host computer, follow this procedure to make sure you have the information you will need when installing.

STEP 1. Verify Oracle. The Oracle RDBMS must reside on the host and be on-line.

Install Procedure. This procedure installs ICP P01-A11-10-0A-A for EDMIS R10.0A AIX version 4.1 operating system baseline onto the installation server. This portion of EDMIS R10.0A must be installed on each server at the installation.

STEP 1. Make sure there is a login account and directory for "edmi s".

STEP 2. Login with the login name of "root".

STEP 3. Change directory to /usr/tmp. Make a directory called "edmi sICP. 100A".

STEP 4. Change directory to /usr/tmp/edmi sICP100A. Copy the following files to /usr/tmp/edmi sICP100A.

edmi s_100A.cpio.Z	18676815	23 Jun 1998
install_edmi s_100A	4291	23 Jun 1998
README.edmi s_100A	1925	23 Jun 1998

4

Change Package Control Number: P01-A11-10-0A-A

STEP 5. Execute the following commands:

```
chmod 777 install_edmi s_100A <Enter>
./install_edmi s_100A <Enter>
./install_prg <Enter>
```

STEP 7. The install_edmi s_100A will complete the following:

- a. display the amount of available disk space on the system being installed to. <Enter> key must be pressed to continue with the installation.
- b. Backup the SITE_DIR to SITE_DIR_SAVE.
- c. Furthermore, the installation script will:
 - (1) Uncompress the edmi s_100A.cpio.Z file. Then it will uncpio the edmi s_100A.cpio.Z file into the home directory of user "edmi s".
 - (2) Restore the backup files from edmi s SITE_DIR to APP_BASE directory.
 - (3) Copy the letters directory to the SITE_DIR letters directory.
 - (4) change the ownership and mode of the files to the correct settings.

- (5) Run alteredmis if there are any database changes required.
- (6). It will record all output(s) from each of the steps performed in a file named "edmis_100A.log" located in the /tmp/edmisICP.100A directory.

STEP 5. The resulting log, edmis_100A.log, should be copied to the directory /files/home/staff/sdcw at the termination of the install. Results of the installation in edmis_100A.log should be reviewed.

3.6.1 Installation Effective Date. This ICP should be immediately implemented upon receipt or NLT 30 days from date of receipt.

3.6.2 Security Implications. This paragraph has been tailored out.

3.6.3 ANSOC Installation Instructions. All users receive the same baseline with change package number through e-mail and Status Tracking and Reporting System (STARS) Bulletin Board System (BBS). This change package contains the following files:

5

Change Package Control Number: P01-A11-10-0A-A

Quantity	File ID	System	Change Package No.
1	edmis_100A.cpio.Z	AIX OS 4.2	P01-A11-10-0A-A
	README.edmis_100A		
	install_edmis_100A		

Ensure that all master file backups have been completed prior to loading this package.

Use these load instructions to develop load procedures that work best for your installation.

Due to various user configurations, each installation must determine appropriate block-size and library allocations.

Users must not, repeat, must not, make changes to the files.

Security impact: None.

3.6.4 Special Installation Instructions - All Users. None.

3.6.5 Point of Contact. If there are any problems or questions with the installation, or any shortage to the contents of this package, call the Army Network and Systems Operator Center (ANSOC), Ft. Huachuca: DSN 879-6798/6858 or 1-800-305-3036.

3.6.6 Report of Implementation. Implementation of this change package must be reported by completing the change package implementation form. This report must be sent to Ft. Huachuca using Fax or mail.

3.7 Possible Problems and Known Errors. This paragraph has been tailored out.
